

CPS Award of Merit for Louis Brunet

It is my great pleasure to present the CPS Award of Merit to Louis Brunet. He is meritorious indeed. He is a professor in the Department of Psychology at the Université of Québec à Montréal and is a gifted and knowledgeable psychoanalyst. With the CPS he has served on numerous committees and is a past treasurer and past president of the CPS. In both positions he served with great competence, a serious sense of his responsibilities but also with a sense of humour. You would know that the first order of business at a National Council meeting was going to be to bring at least a broad smile to your face and probably a belly laugh. Louis went from being CPS president to representing Canada at NAPsaC where he worked hard and constructively instigated structural change. He went on to serve on the board of the IPA.

The lists of Louis's research and publications in journals and books take up many pages of his 50 page CV. He is a sought-after speaker and teacher in Canada in the US and in France with his interest and expertise in narcissism, aggression and terrorism and in child psychoanalysis. Now we are very fortunate that he has agreed to be the next Editor-in-Chief of the *Revue canadienne de psychanalyse*, the Canadian Journal of Psychoanalysis. Congratulations Louis!
